A multi-asset investment emphasising the portfolio benefits of precious metals.

The Cor Capital Fund is an Australian registered managed investment scheme that seeks to generate stable positive returns, regardless of prevailing economic or financial market conditions.

It is commonly used as an alternative asset within a broader strategic asset allocation or as a standalone medium-term absolute return investment.

The objective of the Fund is to generate medium to long term returns, without significant interim drawdowns, by investing and trading in developed-market equities, precious metals, fixed interest and cash. The Fund portfolio is highly liquid and diversified.

*Past Performance is not a reliable indicator of future performance. Net-of-fees performance is based on end-of-month redemption prices after the deduction of fees and expenses and the reinvestment of all distributions. Gross-of-fees performance is the net return with fees and expenses added back. Figures include changes in principal value. Investment return and principal value will vary, and an account may be worth more or less at termination than at inception. For further details, please refer to the fund's product disclosure statement and reference guide which are available from EQT or Cor Capital.
